PrintJob (Mobility Print) on a ChromeBook

Make sure you are connected to CanisiusWireless.

You will be signed into the Chromebook with your personal gmail account.

Click on Add account and log into your Canisius account.

Once signed in you can continue on with installing the Mobility Print app

You will know the Canisius account is active by the icon in the upper right of the page. The N is this example represents the Canisius account.

When you are printing you will want to make sure the Canisius Account is the active account.
1. Install the Mobility Print Chrome app from the webstore.

2. Click on Add to Chrome

3. Click on Add app

4. Above the two printers are listed MyColorPrintJob and the MyGrayscalePrintJob

5. If printing is available, right-click; then select Print.

6. Click Change to choose a printer.
7. Select a printer from the list in above example MyGrayscalePrintJob is selected. Make sure you select a Mobility Print printer as identified by the PaperCut icon as they are in the snapshot above step 4. in these instructions.

![Password required to print]

8. When prompted enter your PaperCut Username and Password. If you select the **Remember me** checkbox, your device will remember your login details for that printer for one week.

Here is a general installation video for a [chromebook](https://example.com/chromebookvideo).
