Below are two sets of Tutorial Videos for D2L. The first set shows the new D2L interface appearing on May 17th, and the Center for Online Learning & Innovation (COLI) is in the process of updating all tutorial videos to show the current version of D2L. The second set features an older D2L interface, but in both old and new interfaces the procedures for creating and doing things are mostly the same. So if you see a video listed that isn't a clickable link or don't see the topic you are looking for, check the videos for the old interface below. The older videos can still be helpful in learning how to do things in D2L.

Table of Contents

Basics
- Introduction and Basic Navigation
- Grade Report
- Accessing Google Drive Content Linked in D2L
- Add Your Pronouns to D2L

Discussions
