Adding a line to the Canisius plan: (only if they're already a Verizon Wireless customer)

1. To take over their number he/she will need to pay off any device payment that they may have.
2. Then he or she contacts 1-800-922-0204 and advises the rep that they allow Canisius College to assume liability of their number.
3. Then you call the same 1-800-922-0204 number and advise them that you want to assume liability of that number and let them know what plan you want.
4. Note that if they're currently not eligible for a new phone, they won't be eligible on the Canisius account either until their update date arrives.
