

Getting Started with Blogs/Divi

1. [Sign up for a Wordpress account.](#)

2. [Change your theme to Divi.](#)

We highly recommend that you change your theme to Divi. Divi is a flexible, modular theme that is highly customizable. Running this theme on all Canisius blogs will allow us to more easily support you and to troubleshoot issues if any should arise.

a. [Divi demo.](#)

b. [What is Divi?](#)

c. [Customize your Divi theme, basics](#)

i. [Using The Divi Video Module](#)

ii. [Creating Single Page Websites Using Divi.](#)

iii. [Using The Divi Accordion Module](#)

iv. [Using Divi Header & Navigation Options](#)

v. [Using The Divi Fullwidth Portfolio Module](#)

vi. [Using The Divi Filterable Portfolio Module](#)

vii. [Using The Divi Image Gallery Module](#)

viii. [Using The Divi Image Module](#)

ix. [More Divi Tutorials](#)

x. [Article Cards Plugin for the grid blog layout.](#)

3. Create content.

a. [Create a post.](#)

b. [Create a page.](#)

4. [Create a newsletter that pulls posts from your blog.](#)
