PURPOSE

The purpose of this policy is to promote the health, safety, and welfare of minor children on campus, as well as minors who participate in Canisius College sponsored programs and activities. To support the protection of minor children, this policy outlines what is required of employees, students, student employees, and volunteers who work in activities and programs with minor children, and informs individuals of their reporting obligations in instances of known or suspected child abuse or maltreatment.

POLICY

Canisius College campus grounds and infrastructure are designed to provide an environment conducive to the college’s mission as an institution of higher education. For reasons that include the safety of minor children and assuring the efficient performance of academic pursuits, administrative operations and services, the college has adopted the following policies:

- Minor children must be supervised at all times by an authorized adult while participating in a college-sponsored program or activity. During these visits, the minor child may not be left unattended or with other college personnel or students;
- All college-sponsored activities and programs with minor children must register annually with the Office of Event Services;
- All program staff that have direct contact with minor children or supervise a program with minor children are required to have a background check on record with the college before the adult is hired or allowed to engage with minor children. The background check must be reviewed and approved by Human Resources prior to being hired and/or engaged in working with minor children and at least once every 3 years thereafter. College personnel that are rehired within a three-year period after their original hire date do not need a background check if one is currently on file with Human Resources;
• Non-college entities providing adult supervisors for college-based programs and activities involving minor children are required to conduct background checks on program staff and directors at least comparable to the standards indicated in this policy. Moreover, such entities must provide requisite insurance as established by the Office of Event Services;
• All college staff that have direct contact with minor children or supervise a college-sponsored program with minor children must abide by the standards of behavior listed in the Procedures/Guidelines section of this policy before working in activities and programs with minor children. The standards of behavior prohibits one-on-one interactions unless otherwise authorized in accordance with this policy;
• All college students coming into contact with minor children must always be supervised by a faculty member; and
• Any college employees and volunteers that have direct contact with minor children or supervise a college-sponsored program or activity with minor children, who witness child abuse or maltreatment, or have information that would lead a reasonable person to believe a minor child faces a substantial threat of such abuse or neglect, must follow the reporting procedures in the Procedures/Guidelines section of this policy.

DEFINITIONS

Authorized Adult—an adult, including but not limited to college employees, student employees or volunteers, who is responsible for the care, custody or control of the minor(s) child participating in any college-sponsored program or activity.

Child Abuse—encompasses the most serious harms committed against children. An “abused child” is a child whose parent or other person legally responsible for his/her care inflicts upon the child serious physical injury, creates a substantial risk of serious physical injury, or commits an act of sex abuse against the child. Not only can a person be abusive to a child if they perpetrate any of these actions against a child in their care, they can be guilty of abusing a child if they allow someone else to do these things to that child. Child abuse is defined in law at Section 412 of the Social Services Law and at Section 1012 of the Family Court Act.

College Housing—Facilities owned by, or under the control of, the college intended for use as housing.

Minor Children—a child under the age of 18, with the exception of properly enrolled students and employees.

Maltreatment (includes Neglect)—refers to the quality of care a child is receiving from those responsible for him/her. Maltreatment occurs when a parent or other person legally responsible for the care of a child harms a child, or places a child in imminent danger of harm by failing to exercise the minimum degree of care in providing the child with any of the following: food, clothing, shelter, education or medical care when financially able to do so. Maltreatment can also result from abandonment of a child or from not providing adequate supervision for the child. Further, a child may be maltreated if a parent engages in excessive use of drugs or alcohol such that it interferes with their ability to adequately supervise the child.

Neglect is defined in law at Section 1012 of the Family Court Act. Maltreatment is defined in law at Section 412 of the Social Services Law. Although the terms are not synonymous in the law, for the purposes of this policy, the terms neglect and maltreatment are used interchangeably.

Mandated Reporters—are certain professionals recognized by New York State who are specially equipped to perform the important role of mandated reporter of child abuse or maltreatment. Please refer to the Summary Guide for Mandated Reporters in New York State (Pub. 1159) for a listing of mandatory reports under New York law.

Program/Activity Leader—the college point person for a college-sponsored program or activity.

Sponsoring Department—the academic or administrative department of the college which offers a program or activity or gives approval for use of college facilities.

PROCEDURES/GUIDELINES

The following procedures and policy guidelines apply to a sponsoring department offering or approving a program or activity that involves minor children or provides college housing for minor children participating in a program or activity:

Registration

Departments sponsoring activities and programs with minor children, including all camps, must register annually with the Office of Event Services prior to the beginning of the college’s fiscal year for ongoing programs and activities. Information to be provided includes the general nature of the activities and program to be undertaken or offered; the dates and locations where minors will be participating; and the names of all adults who will be participating directly with minors in the program or activity.

In addition, each sponsoring department is required to obtain Health and Liability Waiver forms for each program participant and program staff member and submit it to the Office of Event Services prior to first day of the program or activity.

Background Screens

Each authorized adult that will have direct contact with minor children or supervise a college-sponsored program or activity with minor children is required to have a criminal background screen on record with the college before the adult is hired or allowed to engage with minor children. The background screen must be reviewed and approved by Human Resources prior to being hired and/or engaged in working with minor children and at least once every three (3) years thereafter. Employees or volunteers do not need a background screen if one is currently on file with the college within the three-year period after the original hire or volunteer date. Non-College entities providing adult supervisors for college-based programs or activities are required to conduct background checks on program staff and supervisors at least comparable to the college standards.

In order to complete a background screen, the sponsoring department must send the appropriate form(s) for each employee and volunteer to Human Resources no later than two weeks prior to the start of the program.

In addition to criminal records screens, the college also conducts a sex offender registry search.

It is the responsibility of the person in charge of the college-sponsored program or activity to assure that each authorized adult has submitted the required background screen request form(s) and has subsequently received clearance to participate. Human Resources will maintain a roster of individuals who have been cleared to participate and the dates on which a new background check will be required. The background screen will be limited to criminal offenses, including, but not limited to, child abuse, for which an individual has been convicted, pled guilty to a felony or misdemeanor, or where such charges are currently pending.
A decision not to permit an individual to participate in a program or activity covered by this policy based on the results of a background check will be made by the associate vice president for human resources and compliance after consultation with the appropriate Senior Leadership Team member. The college reserves the right to take appropriate action with respect to college employees who may have falsified or failed to disclose information material to their employment/volunteer status on applicable applications/forms uncovered as a result of the background check, including and up to immediate termination. Copies of background check reports will be retained in Human Resources.

All contracts for the services of independent contractors that will be working with minor children must include a provision assuring that the personnel of such independent contractors or the contractor (in the case of a solo contractor) has complied with, at a minimum, background screens and training comparable to those required by the college under this policy. In addition, all independent contractors must reference this policy and the Child Abuse and Maltreatment Policy to such contracts.

Orientation Training

Each authorized adult who will be participating in a program covered by this policy must attend mandatory orientation training on the standards of behavior requirements of this policy, on protecting minor children participants from abusive emotional and physical treatment, and on appropriate or required reporting of incidents of improper conduct to the proper authorities including, but not limited to, appropriate law enforcement authorities. All training will be conducted or approved by the Office of Event Services, in conjunction with Human Resources and the Title IX coordinator.

Reporting Child Abuse or Neglect

If a program participant discloses any type of assault or abuse (at any time previous to, during or after the program), or an authorized adult has reason to believe that the participant has been subject to such abuse or maltreatment, the authorized adult must immediately call 911 or the local law enforcement agency. Further procedures for addressing child abuse or maltreatment can be found in the college’s Child Abuse and Maltreatment Policy.

Authorized adults must make all reasonable efforts to ensure the safety of minor children participating in college-sponsored programs and activities covered by this policy, including removal of minors children from dangerous or potentially dangerous situations, irrespective of any other limitation or requirement.

Standards of Behavior

Authorized adults or any adult participating in college-sponsored programs and activities covered by this policy may not:

- Have one-on-one contact with minor children; in general, it is expected that activities where minor children are present will involve two or more authorized adult participants/supervisors;
- Participate in a sleepover under the auspices of the college-sponsored program or activity, unless two or more authorized adults are present and remain in each other’s presence at all times;
- Engage in abusive conduct of any kind toward, or in the presence of, a minor child, including but not limited to hazing or verbal, physical, and/or cyber bullying;
- Strike, hit, administer corporal punishment to, or touch in an inappropriate or illegal manner any minor child;
- Pick up minor children or drop off minor children from their homes (other than the driver’s child or children or friends of the driver’s child or children other than when such child or children are present) at their homes in the adult’s personal vehicle, whether before, during, or after the program or activity;
- Engage in the use of alcohol or illegal drugs or be under the influence of alcohol or illegal drugs during college-sponsored programs or activities;
- Make pornography in any form available to minor children participating in programs and activities covered by this policy or assist them in any way in gaining access to pornography;
- Possess fireworks, firearms, guns, knives, archery equipment and other weapons during college-sponsored programs or activities unless being used for an officially sanctioned and approved instructional program;
- Permit the operation of motor vehicles by minor children while attending and participating in the college-sponsored program or activity;
- Use tobacco products during college-sponsored programs or activities; or
- Inappropriately use mobile devices, cell phones, cameras, imaging, and digital devices, including use of such devices in showers, restrooms, or other areas where privacy is expected by participants during college-sponsored programs or activities.

Use of College Housing

If the college-sponsored program includes minor children residing in college housing, the rules and regulations must be observed:

- Written permission from the minor child’s parent/guardian must be obtained by Student Affairs and submitted to the Office of Event Services prior to the minor child’s stay in college housing;
- The establishment of a curfew time which is age-appropriate for the participants as determined by the program director, which in no case shall be later than midnight;
- In-room visitation will be restricted to participants of the same gender;
- Guests of participants (other than a parent/legal guardian and other program participants) are restricted to visitation in the building lobby and/or floor lounges, and only during approved hours specified by the program; and

2.5.3 Children in the Classroom and Workplace Policy

CHILDREN IN THE CLASSROOM AND WORKPLACE POLICY

Effective Date: May 8, 2017
Policy Number: II – 2.5.3
Supersedes: Not Applicable.
Issuing Authority: President
Responsible Officer: Vice President for Academic Affairs and Associate Vice President for Human Resources and Compliance
Applicability: All members of the Canisius College community.

History:
PURPOSE

The purpose of this policy is to promote the health, safety, and welfare of minor children on campus and to establish guidelines for supervisors and course instructors who are responsible for addressing issues of minor children in the workplace and classroom or laboratory/research facilities. It also outlines responsibilities for parents and caregivers for any minor children they are permitted to bring to Canisius College facilities, whether they are students, staff, or faculty/instructors.

POLICY

Canisius College campus grounds and infrastructure are designed to provide an environment conducive to the college’s mission as an institution of higher education. For reasons that include the safety of minor children and assuring the efficient performance of academic pursuits, administrative operations and services, the college has adopted the following policies:

- Minor children must be supervised at all times by a parent, guardian, or caregiver while on campus or participating in a college-sponsored program or activity. During these visits, the Minor may not be left unattended or with other employees or students;
- The college does not allow the continued or reoccurring presence of a non-enrolled minor child in the workplace or classroom setting for the following reasons: (1) the potential for interruption of work; (2) health and safety concerns; and (3) liability to the college;
- Minor children may be brought to the workplace by parent or caregiver employees in the case of unforeseen or emergency situations or when common sense would dictate that it is more efficient for the employee to bring the minor child into the workplace (e.g., following or before a physician’s appointment if child is not contagious). Such arrangements should be infrequent and only to be temporary in nature;
- Minor children are generally not permitted in classrooms while classrooms are in session unless permission is granted by the course instructor. Should a minor child become disruptive, the student and minor child may be asked to leave by the course instructor.
- In keeping with the provisions of the Affordable Care Act, the college allows for reasonable break times for lactating mothers to express milk and provides accommodations shielded from view to do so. In addition, mothers who choose to breast feed their infant at the workplace are allowed to do so as an exception to this policy.
- Employees and students who bring minor children to the workplace or classroom are responsible for all aspects of the child’s behavior. The employee or student is responsible for the minor child’s safety and is financially responsible for any damages caused by the child. The college does not accept liability for injuries to children or visitors on college premises in violation of this policy.
- Minor children are generally permitted in general use areas and facilities (athletic fields, public spaces, academic buildings, food service areas, etc.) with a parent, guardian or caregiver, but may be restricted from certain areas of these areas and facilities or from utilizing certain equipment.
- A minor child with an infectious disease should never be brought to campus.
- Even when accompanied by a parent, guardian or caregiver, minor children not participating in a college-sponsored program or activity are prohibited from high-risk areas such as: laboratories, shops, studios, mechanical rooms, power plants, garages, food preparation areas, or any areas containing power tools or machinery with exposed moving parts.
- This policy is not intended to prohibit participation in a college-sponsored event, such as “Take Your Child to Work Day” or other events where families are invited and encouraged to participate.

DEFINITIONS

Minor Children—children under the age of 18, with the exception of employees and enrolled students.

PROCEDURES/GUIDELINES

Responsibilities of the Parent or Caregiver

In the case of unforeseen or emergency situations when common sense would dictate that it is more efficient for the employee to bring the minor child into the workplace or classroom, parents or caregivers must contact their immediate supervisor (employees) or course instructor (students) as soon as possible in order to make a request to bring a minor child to work or class.

Such arrangements are expected to be infrequent and temporary in nature. This allowance is not applicable to high-risk areas such as: laboratories, shops, studios, mechanical rooms, power plants, garages, food preparation areas, or any areas containing power tools or machinery with exposed moving parts.

If the primary considerations of health, safety, institutional liability, productivity, professionalism, or the quality of the working or learning environment are compromised by the frequency of the minor child’s presence, in the opinion of a supervisor or course instructor, the parent may be instructed not to bring the child into the workplace, or to request an exception. An exception requires written justification signed by the caregiver. The justification must be routed through and approved by the appropriate Senior Leadership Team member. Requests will be considered on a case-by-case basis and will be rare.

If a request is approved, the minor child must be directly supervised by the parent or caregiver at all times and the parent or caregiver is responsible for all aspects of the child’s behavior. The parent or caregiver may not ask any other employee, course instructor, or student to supervise the child.

If a request is approved, the minor child must be directly supervised by the parent or caregiver at all times and the parent or caregiver is responsible for all aspects of the child’s behavior. The parent or caregiver may not ask any other employee, course instructor, or student to supervise the child.

Parents or caregivers must ensure that the presence of a minor child does not disrupt or interfere with the productivity of the work or learning environment. Parents or caregivers will be required to remove the minor child if the child’s behavior becomes disruptive or a distraction to other employees or students.

Minor children are not to have access to any confidential information at any time.

Responsibilities of the Employee Supervisor

A supervisor has the responsibility and right to instruct the parent not to bring the child into the workplace, to limit the frequency, or to request an exception if, in the judgment of the supervisor, the presence of the minor child compromises the health or safety of fellow employees, workplace productivity or the presence of a high quality working environment.

Supervisors are responsible to give appropriate consideration to mothers who wish to breastfeed their infants at work and report the same to the applicable Senior Leadership Team member. Supervisors are expected to work with the Human Resources to ensure that mothers have reasonable accommodation to do so in private.
Supervisor should consult the Human Resources if there is any concern of question regarding an employee’s request to bring a minor child to the workplace.

**Responsibilities of the Course Instructor**

A course instructor has the responsibility and right to have the student remove the minor child if, in the judgment of the course instructor, the presence of the minor child compromises the health or safety of fellow students, classroom productivity or the presence of a high quality learning environment.

A course instructor should consult with his or her department chair if there is any concern of question regarding a student’s request to bring a minor child to class.

**PURPOSE**
The purpose of this policy is to establish the policies, procedures, and guidelines for parking and traffic on campus.

**POLICY**

Parking a vehicle on the college campus is a privilege. Any person who parks a vehicle on the Canisius College campus agrees to abide by the policies, regulations, procedures, and guidelines contained in this policy. Failure to abide by the policies, regulations, procedures, and guidelines contained in this policy may, at the college’s sole discretion, result in the imposition of fines, impoundment of the vehicle, towing, and storage of the vehicle at the owner’s expense, disposition of an abandoned vehicle, or any combination of these repercussions. Any unauthorized vehicle parked in a space marked “Handicap” or in a fire zone will be immediately ticketed and towed at the owner’s expense.

**DEFINITIONS**

Not applicable.

**PROCEDURES/GUIDELINES**

Although there are an adequate number of parking spaces available on campus, like any other college, parking may not be available as close as individuals would like to the particular building where they reside, work, or attend class. To help members of the campus community understand the parking regulations and avoid the unpleasant surprise of receiving a parking summons, an electronic distribution of the parking regulations is sent to all students, faculty, and staff at the beginning of the fall semester. In addition, each parking area is well marked with signs that indicate parking restrictions for that area. Enforcement of these regulations is necessary to ensure that all members of the Canisius community receive fair and consistent parking opportunities.

**Parking on Campus**

Only vehicles that display a Canisius College parking permit are entitled to park in campus lots. Permits are needed 24 hours a day, year round. Possession of a parking permit entitles the registrant to park only if there is available space in the parking area for which the permit is valid. Although the college does not guarantee a parking space, there are an ample number of spaces available daily. During certain special events or occasions, parking restrictions will be regulated by Public Safety. Parking areas are not attended. The registrant should lock their doors and take steps to safeguard the vehicle and contents. Canisius College shall be exempt from any and all liability for any damage, theft, or injury to property and persons.

**Student Permits**

Upon course registration and then each year thereafter, student vehicles are registered on-line by simply going to myCanisius; login with username & password; click on Financial Services (left side), click Purchase Parking – follow the prompts (registrants will need vehicle description, license plate number, and payment information) – make sure to “submit”. Upon completion, students must come to the Student Records and Financial Services Office to obtain their parking hang tag.

**Faculty/Staff Permits**

Upon initial hire and then each August thereafter, staff/employee vehicles are registered on-line by simply going to myCanisius; login with username & password; click on Campus Services (left side), click Purchase Parking – follow the prompts (registrants will need vehicle description, license plate number, and payment information) – make sure to “submit”. Your parking hang tag will be sent to you via interoffice mail.

**Disabled Parking**

Employees who require special parking permissions (other than for a temporary disability) must obtain a Parking Permit for Persons with Disabilities from their respective communities. This will allow parking in any spot on the Canisius campus when combined with a Canisius parking tag. The permits are available by filing form MV-664 in the city, town or village in which you live. It requires confirmation of the disability by your doctor. For a short term special needs parking pass based on a disability or medical need, please contact the Human Resources Department to obtain a temporary parking permit.

**Visitor Parking**

Students having guests on campus should ensure that their guests are parked in an appropriate parking spot by contacting Public Safety at the time of the visit and by following parking directions given by public safety at that time. Departments and offices are responsible for the parking of their guests. Each department/office must contact Public Safety prior to the event or visit to arrange for an appropriate place for their guests to park. The respective department/office will be responsible for communicating the parking information and directions to their guests. Guests who contact Public Safety after receiving a summons will be referred to the person, office, or department they were visiting. Short notice parking arrangements for events, meetings, etc., requiring multiple spaces is discouraged due to staffing needs, availability and other concerns.

**Parking Regulations/Enforcement**

Parking and traffic regulations are strictly enforced 24 hours a day, year-round.

Each registrant shall be responsible for ensuring that the permit is displayed on the vehicle and the vehicle is parked in the correct location.

Each Canisius College parking area is conspicuously posted with signs that indicate restrictions for that area.

All vehicles must be parked between marked parallel lines. Parking is prohibited in all driveways and entrances to all parking lots. No person shall park a vehicle on the premises of the college in such a manner as to interfere with the use of a fire hydrant, fire lane or other emergency zone, create any other hazard or unreasonably interfere with the use of a roadway or pedestrian way.

Motorcycles, mopeds, motor scooters and motor bicycles are not permitted to park on sidewalks, under building overhangs, inside courtyards or in buildings or interfere with pedestrian traffic.
Use of all lots is restricted to properly registered vehicles. Violators will be issued city of Buffalo parking summonses. Once issued, these summonses cannot be voided by Public Safety. All business must be conducted with the city of Buffalo Parking Violations Bureau. Parking on city streets is regulated by the city of Buffalo Police and Parking Violations Bureau.

Illegally-parked vehicles, those creating a hazard and abandoned vehicles are subject to towing and impoundment at the owner’s expense. Canisius College shall be exempt from any and all liability for any damage to the vehicle.

Traffic Regulations

People who drive vehicles on campus are subject at all times to the motor vehicle laws of the state of New York and, where applicable, to the ordinances of the city of Buffalo.

All persons are required to obey posted speed limits, traffic control devices, and posted parking requirements at all times.

A full stop at all stop signs is required. Pedestrians have the right of way. Motor vehicles may not be operated on any sidewalk, courtyard or green space. Public Safety officers and city of Buffalo police are empowered to enforce ordinances and laws pertaining to traffic regulations.

The operation of a motor vehicle on the campus of Canisius College is a privilege granted by this institution. Serious or excessive traffic violations may result in the loss of this privilege.

Hang Tag Permit Procedures

Lost or stolen or forged permits: Lost or stolen permits should be reported to Public Safety when the loss or theft is discovered. Any vehicle that displays a lost, stolen, forged, or altered permit will be issued a summons. In addition, the owner or operator of the vehicle may be subject to college and/or criminal sanctions.

Refunds: Upon separation from the college, permit holders may be entitled to a pro-rated refund. Contact Student Accounts for more information about the refund policy.

Permit transfer: Parking permits may not be transferred to another person.

Accidents Involving College Vehicles

The primary concern of all individuals who use college vehicles must be the avoidance of accidents by conscientious observation of traffic regulations and defensive driving. In the event an accident does occur, the circumstances will dictate the priority of the actions to be taken; however, to protect insurance benefits and reduce liability exposure, the following steps must be accomplished as the situation permits:

- Obtain medical assistance for anyone who may have been injured;
- Confer with the appropriate law enforcement agency and ensure that an official report of the accident is completed. If possible, obtain a copy of the report. If it is not possible to obtain a copy of the report, the case number assigned by the law enforcement agency must be obtained and reported to Public Safety as soon as possible;
- If personal injury or major property damage was caused by the accident, telephone Public Safety and provide the details of the accident;
- Upon returning to the college, report immediately to Public Safety, turn in the accident report or case number, and relate the full details of the accident;
- Consult with Public Safety and the vice president for business and finance with regard to the processing of an insurance claim.

All accidents involving college vehicles that result in bodily injury or property damage will be the subject of an administrative review. Upon notification of such an accident, the vice president for business and finance will appoint a disinterested staff member to conduct an impartial and thorough investigation of all the facts surrounding the accident. The investigator will submit conclusions as to the cause of the accident and as to whether or not negligence was involved to the vice president for business and finance. In turn, the vice president for business and finance will make recommendations regarding the loss of driving privileges or other appropriate action to the college president, who will determine the final administrative action.
