Community-Based Learning at Canisius College

What is Community-Based Learning at Canisius College?

- A method of learning through experience
- Connected to courses for credit
- A way to live out the mission and vision of Canisius College through an experience
- A call to help to transform the communities in which students serve in positive and meaningful ways
- Reflection on a community based experience and on critical social justice issues

Canisius College is a Catholic, Jesuit college with a special mission founded on certain cornerstones:

- Men and women with and for others.
- Cura Personalis: care of the whole person.
