Home

Administrative Computing Support Page

Purpose:
The long term goal of this space in Confluence is to create a documentation storage mechanism related to the Administrative Computing Software we support and Projects we are currently working on. For our immediate needs, we plan to use this space to educate the campus regarding the Ellucian Banner 9 conversion to Learn about Banner 9.

Administrative Computing Staff:

- Michele Folsom
- Lauren Barry
- Russell Caliano
- Pamela Dart
- David Shakarjian
- Tracy Wass
