Overview

At Canisius we have a wiki, referred to by its brand name as "Confluence," or “the Canisius Wiki.” A wiki is a web space or set of spaces that allows many participants to collaboratively create, edit, and display a variety of information, images, video, and links. Users can do so within their web browser, without specialized development tools or skills.

This training will:

- Show you how to create a strategic plan page.
- Create a planning page.
- Create a meeting minutes page and meeting minutes.

What to do before the training:

- Have a Confluence space.
  - Don't have a Confluence space? Click on the Request a Confluence Space in the homepage.
