

Online & Hybrid Teaching Resources

Online Learning CANISIUS COLLEGE

We offer 12 unique online degrees and 5 online certificates. Our faculty understand their fields intellectually and practically. They bring experience to every course and many hold PhDs or other terminal degrees. They combine quality instruction with flexibility designed for working adults. So - online or in person - our students get a world-class education with a real-world point of view.

The Center for Online Learning & Innovation is the College's primary support office for faculty teaching online and hybrid courses. We offer on-campus workshops and meetups, online tutorials and self-paced training, and a five-week mini-course to help professors prepare to teach online, and improve their proficiency.

Training & Consultation for Faculty

Teaching Online & Hybrid Courses: Getting Started	Not sure where to begin? See our checklist for getting started teaching online.
Online Faculty Development Course 	COLI offers an Online Faculty Development Course, which is a five-week, all-online mini-course that helps professors prepare to teach online and hybrid courses.
Faculty Development 	Periodically COLI hosts faculty development events, many of which are useful for or focus specifically on hybrid and online pedagogy. Keep an eye on the events calendar on the COLI website for upcoming faculty development opportunities.
Book a Consultation 	In addition to the regularly scheduled trainings, COLI staff will also offer one-on-one consultations at regularly scheduled times during the week.
Online & Hybrid Teaching References	The Center for Online Learning & Innovation maintains a reading list specifically for online and hybrid pedagogy as a Zotero group.
COLI Guide To Teaching Online 	The OFDC course "text," which consists of five interactive lessons or modules. These contain many insights into online pedagogy, and practical tips for building content, creating community, and managing online and hybrid courses. The COLI Guide can also be practically helpful for teaching face-to-face courses.

Tools for Online Teaching

A tools-based approach, to answer the question: *If I wanted to build an online course, where should I start experimenting?*

Course • Design Basics

useful for online, hybrid, and face-to-face courses. A summary guide to designing courses in higher education.

Drop-In Resources

Asynchronous discussions are a common feature in most online and hybrid courses. Here are some guidelines you can adopt or adapt in your class, to ensure that students get the most out of online discussions, and are respectful and inclusive in the process.
