• Tables and chairs (non-movable)  
• Light switch by door  
• Internet and network access  
• Phone (on TV cart)  
• Whiteboard (side wall) |

Powering Up the Equipment
The power for each device must be turned on separately. The 55" LCD TV is powered on by pressing the POWER button on the accompanying Samsung TV remote control.

55" Samsung LCD TV

The resident computer, Blu-ray player, and DVD/VCR are both powered on using the appropriate button located on each device.

Volume
The adjustment of volume is done using the VOL + and - buttons on the Samsung TV remote control.

NOTE: Computers have their own volume controls which may need to be adjusted separately.

Resident Computer
Press the POWER button on the resident computer to turn it on. **LY 315 is equipped with a Mac Mini. USB ports are located on the back of the computer.**

Once the computer has been powered up, press both the SOURCE button on the Samsung TV remote control until the LCD TV is set to the PC input and button #1 on the Extron switcher to display the image.
The computer is located on the equipment shelf.

Press button #1 on the Extron switcher to display the resident computer.

A wireless keyboard and mouse are provided and must be turned on separately; the power button for the keyboard is on the side near the upper right corner, while the power button for the mouse is located underneath.

Blu-ray or DVD Playback (via the Blu-ray player)
Once the equipment is powered up, insert your disc into the Samsung Blu-ray player. The player is controlled using the buttons on the unit or the corresponding Samsung remote control provided.
The Blu-ray player is located on the shelf

The LCD TV must be set to input HDMI2 (Blu-ray) to display the Blu-ray player image. Press the SOURCE button on the Samsung remote control until HDMI2 is highlighted and then press ENTER.

DVD or VHS Tape Playback (via the DVD/VCR combo unit)
Once the equipment is powered up, insert your disc or tape into the JVC DVD/VCR combo unit. The combo unit is controlled using the buttons on the unit or the corresponding JVC remote control provided.

The DVD/VCR combo unit is located on the shelf

The LCD TV must be set to input HDMI1 (VCR) to display the DVD/VCR image. Press the SOURCE button on the Samsung remote control until HDMI1 is highlighted and then press ENTER. To switch between DVD and VCR modes, press the DVD/VCR button found on the combo unit itself.

Connecting a Laptop
The cables needed for connecting a laptop computer are found on the equipment shelf.

Using the VGA cable
1. Plug the VGA cable into your laptop's VGA port.

2. Plug the audio cable into your laptop's headphone jack.

3. Press the SOURCE button on the Samsung TV remote control until the projector is set to the PC input.

4. Press button #2 on the Extron switcher.

5. Turn on your laptop's power.

6. If needed, set your laptop to display on a secondary display.
Don't have a VGA port on your laptop? Visit Training & Support to find out what type of adapter is needed to connect your laptop.

**Powering Down the Equipment**
Press the POWER button on either the Samsung TV remote control to turn it off.

The resident computer, Blu-ray player, and DVD/VCR must be powered off separately. Instructions for shutting down the computer are found below.

Be sure to remove any media from the computer before shutting it down.

**Powering Down the Resident Computer**

1. Open the Apple Menu (click on in the upper-left corner) and select "Shut Down...".

2. A dialog box will appear. Click the "Shut Down" button in the dialog box.
