Level Four: Computer Lab

The following technologies are integrated into the majority of Level 4 classrooms (computer labs):

- Ceiling-mounted LCD projector
- Crestron Touch Panel or Crestron / Extron Hard-Button Control Panel
- Permanent instructor's computer with Internet and campus network connectivity
- Plug and Go capability for instructor's laptop
- Document camera
- DVD player
- VHS VCR
- Networked computer stations for each student

For additional room information and to review instructions for use of the technology, please select a particular ITC's page by using the drop-down box below:
