Deleting Adobe Flash Player from Macintosh

1. Locate Adobe Flash Player Install Manager on your Mac

   1. From the Menu bar at the top of the screen, click on Go and select Utilities. If you can’t find Utilities, it also appears in the Application folder.

   2. In the Utilities folder, find and double click on the Adobe Flash Player Install Manager application.

Uninstall Flash Player

1. Click on Uninstall
2. If prompted, enter your password to allow the uninstallation and click on Install Helper.

3. The uninstaller will prompt you to close all open browsers. You can close them manually or click on them in the window.
4. After the uninstaller runs, a window will popup that confirms that Adobe Flash Player has been removed from your computer.
